

Kiddie Academy of White Plains

Core Values & Commitment

At Kiddie Academy of White Plains, we commit to being a community that nurtures, educates, and inspires children for the future! Each day, our core values guide us in the actions we take. More specifically, they capture the reasons we strive to do better than the day before. We all need a “why” to enrich our professional and personal lives and to help us understand how we are making a lasting impact on our community.

Specifically, our core values are:

- **Integrity:** Character begins here by doing what’s right over what’s easy.
- **Relationships:** We nurture and build our entire community (families and team) through the relationships we create. This means we care deeply about everyone with whom we engage, and we help everyone envision how they belong here.
- **Responsibility:** We know how it feels to place our children in the hands of a caregiver for the first time. We have a responsibility to put our best selves and greatest efforts out into the world every day.
- **Curiosity:** We cultivate curiosity in children every day. Each day is another opportunity to discover, adapt, and consistently improve.
- **Passion:** The innovation and delivery of Early Childhood Education is too essential to do halfway. Passion is what drives and inspires us.
- **Impact:** In everything we do, we aim to build a strong foundation and leave a lasting impression. We seek opportunities in both the big decisions and the small moments to create an impact that can reverberate for generations.
